

Precise Automobile Spare Parts Steel 35310-22600 Fuel Injector Nozzle

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 35310-22600
- Minimum Order Quantity: 10 PCS
- Price: \$2.57 ~ \$3.58
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000000 pcs per month

Product Specification

- Product Name: Fuel Injector Nozzle
- Quality: 100% Tested
- Car Make: For Hyundai
- Warranty: 24 Months
- Size: Standard
- Package: Any Color Box As Customers' Requirement
- Highlight: **Precise Automobile Spare Parts,
Automobile Spare Parts Steel,
Auto Spare Parts Steel**

Product Description

35310-22600 Fuel Injector Nozzle for Hyundai Atos 2000-2012 1.1L 35310 22600

Product Description:

The **injector nozzle** is an essential component of internal combustion engines' fuel injection system. Generally, it is referred to as a fuel injector nozzle and its prime responsibility is to supply pressurized fuel into the combustion chamber with exact precision. Moreover, it is instrumental to the engine's performance, fuel efficiency, and emissions control.

Features:

Our injector nozzle is an engine component that facilitates efficient and precise fuel delivery. It ensures superior fuel atomization and precise fuel flow control, resulting in improved combustion efficiency, power output, and fuel economy. Specifically, it breaks down the fuel into a fine mist or spray, promoting thorough mixing with the incoming air. This means that the ideal air-fuel ratio for optimal combustion is achieved, maximizing engine performance and minimizing emissions. Moreover, the design of our injector nozzle ensures an optimized spray pattern and angle, facilitating proper fuel distribution and mixing within the combustion chamber. This enhances combustion stability, reduces the risk of fuel impingement on cylinder walls, and promotes efficient fuel utilization. Our injector nozzle is built from high-quality materials, such as stainless steel or composite materials, making it durable and resilient enough to withstand the demanding conditions of the engine environment. It is also precision-calibrated for the specific requirements of your engine, ensuring reliable fuel delivery and combustion efficiency. Furthermore, our injector nozzle is designed to be compatible with a wide range of vehicle makes and models. It is a direct fit replacement for your original injector nozzle, ensuring a hassle-free installation process and proper integration into your fuel injection system.

Support and Services:

Technical Support and Service for Fuel Injector Nozzle

We provide comprehensive technical support and service for fuel injector nozzles, including:

Free technical consultation

Comprehensive product testing and inspection

Regular maintenance and repair services

Access to spare parts

If you have any questions or concerns regarding your fuel injector nozzle, please don't hesitate to contact us!

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
