2045017182 Radiator Coolant Tube / Radiator Hose For Mercedes Benz W204

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 2045017182
- Minimum Order Quantity: 10 PCS
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-30 days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Application: Radiator Water Pipe
- Size: Standard
- Temperature Rating: 150
- Brand: OEM
- Pressure Rating: 1.6MPa

Product Description

Product Description:

Allow us to introduce our high-quality **Water Coolant Hose Water Pipe** , a crucial component engineered to transport coolant fluid throughout your car's cooling system.

Our coolant hose pipe is built to last with precision and durability, providing optimal performance and reliable cooling. It is a critical part of your car's engine cooling system that must function correctly to avoid overheating and potential engine damage

Features:

Superior Construction

Our water coolant hose water pipe is crafted using high-quality materials such as reinforced rubber or silicone. These materials are resistant to heat, pressure, and coolant chemicals, ensuring strength, flexibility, and long-lasting performance even in demanding operating conditions.

Efficient Coolant Flow

The water coolant hose water pipe facilitates the transfer of coolant fluid between the engine, radiator, heater core, and other cooling system components. It ensures proper engine temperature regulation by circulating coolant fluid and preventing overheating.

Leak and Burst Resistance

Our water coolant hose water pipe is designed to withstand high pressures and temperature fluctuations. It minimizes the risk of leaks or bursts by featuring reinforced layers and sturdy connectors that provide a secure and reliable connection. This enhances the overall integrity of the cooling system.

Temperature and Chemical Resistance

The water coolant hose water pipe is engineered to withstand extreme temperature variations and exposure to coolant chemicals. It resists deterioration, swelling, and cracking, ensuring consistent coolant flow and preventing coolant contamination.

Easy Installation

Our water coolant hose water pipe is designed for straightforward installation, making it suitable for both professional mechanics and DIY enthusiasts. It is a direct fit replacement for your vehicle's original water pipe, ensuring compatibility and a hassle-free installation process.

Quality Assurance

Our water coolant hose water pipe undergoes rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by trusted suppliers who prioritize product quality and performance, providing you with a reliable and durable product.

Technical Parameters:

Product Name	Radiator Water Pipe
Application	Cooling System Tube
Size	Standard
Pressure Rating	1.6MPa
Brand	OEM
Temperature Rating	150
Description	Radiator Water Tube

Support and Services:

Our Radiator Water Pipe product comes with comprehensive technical support and services to ensure you have a seamless experience. Our team of experts are available to answer any questions you may have regarding the installation, maintenance, and troubleshooting of our product.

We also offer repair and replacement services for any defective or damaged Radiator Water Pipes. Our services include quick and efficient diagnosis of the issue, and replacement with a new and improved product.

Additionally, we provide regular product updates and maintenance tips to ensure the longevity and optimal performance of your Radiator Water Pipe.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
